Community Integration Program

The Community Integration Program (CIP) at Origami fosters the generalizing of remedial and compensatory skills learned during residential treatment to a less restrictive environment (i.e. home/apartment, work place, community). In CIP, each person's rehabilitation goals, support, and treatment interventions are specifically tailored for his/her environment. This allows for a more seamless integration back into the community.

Program Admission Criteria:

Male or Female 18 years or older

May require minimal support or supervision in any of the following functional areas while residing in the community:

- | | | | |
|----------------------|-----------------------------|-----------------|--------------------|
| ■ Self Care | ■ Leisure | ■ Social Skills | ■ Safety |
| ■ Productivity | ■ Communication | ■ Learning | ■ Community Access |
| ■ Independent Living | ■ Self-Direction/Initiation | | |

Medically stable, free from acute infection or fever

Does not require daily skilled nursing

Not a danger to self or others

Not actively engaged in substance abuse

Program Focus:

Support for community based, transitional apartment or in-home living

Establish and foster maximum independence in all areas of daily living

Provide guidance for vocational or avocational goals

Facilitate healthy social interaction and involvement in the community

Ongoing stakeholder education and support

Levels of Support

- Transitional Apartment Living
 - Base: 1-6 hours of support per week
 - Standard: 6-10 hours of support per week
 - Intensive: 10-16 hours of support per week
- In Home Support: Rehabilitation Aide as needed

Additional Services:

- Individual Therapy
- Group Therapy
- Day Treatment
- Scheduled Community Activities

Program Discharge Criteria:

1. Individual has achieved a level of functional independence necessitating no programmatic support because of systems in place at home and/or work in all 10 functional areas
2. Individual's behavior is not compatible with the program goals, group activities, or may prevent the progress of other participants*
3. Poses a risk or danger to self or others *

*A discharge procedure will be followed ensuring the opportunity to access other appropriate resources
